Manufacturers Address: Oral BioTech
812 Water Ave NE
Albany, Oregon 97321, USA

Material Identification:

Product Name: CariFree Boost
Purpose: Neutralizes oral pH and relieves dry mouth.

Ingredients:

Glycerin, Natural Flavors, Sodium Benzoate, Sodium Bicarbonate, Sodium Hydroxide, Water, Xylitol.

Description:

CariFree Boost Mouth Spray will moisten your mouth, freshen your breath, and treat your teeth with a xylitol anti-cavity solution.

Recommended Indications:

To be used to moisten oral mucosa. Can also be used as a saliva replacement for patients with low saliva flow, and for neutralization of an acidic oral biofilm. CariFree Boost Mouth Spray can be used as many times daily as needed. A minimum of twice daily is recommended.

Contraindications: None known. CariFree Boost Mouth Spray is safe for use by adults and children.

Directions for use:

Spray in mouth 2-3 times as often as needed. Between and after meals and before bedtime recommended. Store at room temperature. Do not freeze.

Caution:

Always replace cap after use.
Supervise children's use for proper oral hygiene care.
